Section 2. Payment Instructions

(a) Remit U.S. dollars by SWIFT MT103 to the Fund's account below. Set field 71A (Details of Charges) to **OUR**, so that intermediary and beneficiary bank charges are borne by the remitter and do not reduce the amount credited.

(b) Quote the reference **[Fund code]-CALL[n]-[LP ref]** in field 70 (Remittance Information).

(c) Do not remit from an account other than the one recorded in your subscription documents; third-party payments are returned.

Section 3. Intermediary Routing by Remitting Currency

Most delays in CASE-2025-038 came from wires routed through intermediaries that were not on the notice. If your bank converts from the currencies below, ask it to route the U.S. dollar leg through the listed correspondent (field 56A) where it has that relationship.

Remitting currency	Typical remitter	Conversion point	Field 56A intermediary (USD leg)	Settlement window
JPY	Japanese insurers, pension funds, regional banks	Remitter's bank, Tokyo	Remitter's own New York branch or USD correspondent, if any; otherwise [Fund's bank] direct	T+1 to T+2
EUR	Continental European pension funds and insurers	Remitter's bank, eurozone	Remitter's USD correspondent in New York	T+1 to T+2
GBP	UK pension schemes	Remitter's bank, London	Remitter's USD correspondent in New York	T+1
USD	Asian insurers with USD accounts	None	Not required (direct to field 57A)	T+0 to T+1

Section 4. FX Settlement Tolerance and True-Up

(a) Under the FX Settlement Tolerance Policy adopted by the General Partner under Section [3.4(e)] of the LPA, a contribution received within the tolerance band in Section 1 is treated as paid in full.

(b) Any difference within the band is recorded in the Limited Partner's true-up ledger and added to, or credited against, its next Capital Contribution. Overpayments below USD 1,000 are credited, not refunded.

(c) A contribution outside the band is a shortfall. The General Partner may issue a notice under Section [3.4(a)] of the LPA, and the default provisions of the LPA apply.
